### MyTVs Menu

The following sections provide details for accessing the program guide, searching for a specific program, showing existing recordings or scheduled recordings, and using your smartphone as a working remote control with your set top box:

### Remote

This action allows you to use your smartphone as a functional remote control.

### • Guide

•

The Guide allows the user to view guide information by time and date. Programs may be selected within from the guide to view program details, schedule future recordings, and watch program.

### Channel Guide

The Channel Guide allows the user to view guide information by channel. Program may be selected within the guide to view program details, schedule recordings, and watch program.

### Figure 1-2 MyTVs Menu

### • Currently Watching

Shows the user what is currently being watched on the selected STB.

### • Recordings

All existing and scheduled recordings may be viewed within the Recordings menu. Users may select a STB from within their home and view either Current, Future and Series recordings. Allows the management of recordings to include deleting recordings or series.

### • Search

This action allows the user to search by titles, programs, keywords, or phrase for a specific program. Search results may be selected to view program details and schedule future recordings.

### • What's Hot

What's Hot provides the user with real time information about the most popular watched programs in the user's area as well as the most popular recordings and most popular series recordings. Program may be selected from within What's Hot to view program details and schedule future recordings. User may tune their TV to a program by selecting "Watch" on the program details screen.

### Settings

Users can mange their account, switch accounts, add devices, and refresh user and guide data.

# **Remote Control**

This action allows your smartphone to function as a remote control. If the user swipes to the left, a number pad will appear and the user may enter a specific channel number to tune to, or channel up or down to change channels.

#### **Remote Control and Number Pad**

### **Program Guide**

- 1. To view the program guide data by time, select Guide from the MyTVs Menu at the top left corner of the app screen. If a user would like to view the program guide data by channel, they should select Channel Guide from the MyTVs Menu.
- 2. Begin browsing the Program Guide by swiping left or down for other shows in same time slot, right for next timeframe, or use channel numbers on right side.

3.

### Settings

Click on Settings in the MyTVs menu to view Account information.

- 1. A user can manage their account by clicking on Manage Accounts.
- 2. They can also switch to a different account or add another device by clicking on Switch Accounts.
- 3. Refresh All Data allows all settings, recordings, and guide data to be refreshed and updated.

#### Settings

### **Voice Commands**

To activate the Voice Commands functionality,

- 1. Click on the microphone icon at the top right-hand corner of the MyTVs app.
- 2. This will bring up a Voice Commands screen and show a list of available commands.
- 3. Click on the Microphone button and speak the command.

NOTE: You must have Microphone and Speech Recognition activated on your smartphone in the MyTVs App settings.

### Voice Commands

Ļ

## Audio Accessibility

Accessibility mode is not a MyTVs App setting. It is a device setting and called "Voice Over" on Apple Devices (<u>https://www.apple.com/accessibility/iphone/vision/</u>) or "Talk Back" on Android devices (<u>https://support.google.com/accessibility/android/answer/6283677?hl=en</u>). This mode will not just apply to the MyTVs app. Once enabled and in the accessibility mode, the device will talk back about what is happening on the device.
